Abstract— The following paper is intended to set out style guidelines for the Camera Ready Copies of papers for the SCIS/ISIS 2002 conference. The aim is to provide a style that will closely resemble the IEEE transactions style. This paper too is an example of that style.

The normal text of the paper must be in 10pt.

The following is an example of mathematical expressions.

$$x(i+1) = f(x(i)) + G(x(i), u(i))(i) \quad (1)$$

$$y = h(x(i)) \quad (2)$$

I. GENERAL INSTRUCTIONS

A. Proceedings

The proceedings of the conference will be distributed in a CD-ROM. All final papers must be submitted in pdf files within the maximum size of 1.5MB. Authors themselves are responsible for converting their files into pdf; they must not request the conversion to the program committee. Please note that only pdf file is accepted as final papers. Papers in other formats, e.g., MS-WORD, TEX SOURCE FILE, are not accepted. No changes will be possible after submission of your final manuscript.

B. Paper length

Papers should not exceed 6 pages. For papers of excessive pages, additional page charge must be paid.

C. Where to send final papers

Where the authors should send final papers will soon be announced on the SCIS homepage:

<http://scis2002.t-kougei.ac.jp/>

Questions should be emailed to scis2002-regular-sessions@esys.tsukuba.ac.jp

A. Footnotes and Citations

Footnotes must be numbered¹, and placed at the bottom of the page where they appear.

Citations must include the reference number between brackets, for example [1].

B. Figures and Tables

Place illustrations (figures and tables) throughout the paper at the places where they are first discussed in the text, rather than at the end of the paper. Number illustrations sequentially (but number tables separately). All illustrations must be centered. The number and caption of a figure must always appear below the figure. The number and title of a table always appear above the table.

II. PAPER FORMAT

A paper should be A4 sized (210mm x 295mm or 8.5inch x 11.5inch) in two columns with top and bottom margin 25mm (1inch), left and right margin 14mm (0.6 inch), column width 88mm (3.45 inch), and inter-column gap 5mm (0.2 inch).
